# COVID-19 General Prevention

Protect yourself from all infectious diseases by using these precautions.

Stay home when you are sick

Avoid contact with people who are sick

Get adequate sleep and eat well-balanced meals

Wash hands often with soap and water for 20 seconds or longer and dry hands with a clean towel or air dry

Wear a cloth face cover when going out in public

Avoid touching your eyes, nose, or mouth with unwashed hands or after touching surfaces

Cover your mouth with a tissue or sleeve when coughing or sneezing

Clean and disinfect "high touch" surfaces often

Call before visiting your doctor

Clean all "high-touch" surfaces every day.

High touch surfaces include counters, tabletops, doorknobs, bathroom fixtures, toilets, phones, keyboards, tables and bedside tables. Use a household cleaning spray or wipe, according to the label instructions. Labels contain instructions for safe and effective use of the cleaning product, including precautions you should take when applying the product, such as wearing gloves and making sure you have good ventilation during use of the product.
